General Description
The Kimble Ranch has been owned by the Kimble family for three generations and is one of the reputation ranches in southeastern Arizona/ southwestern New Mexico.

It is scenically nestled between the Chiricahua and Peloncilla Mountain ranges at the south end of the San Simon Valley on U.S. Highway 80. 40 miles southwest is historic Douglas, Arizona and the border of Mexico. Rodeo, New Mexico, is 12 miles to the north. The Kimble Ranch and one neighboring ranch share the control of the access from Highway 80 with a locked gate.

The Kimble Ranch is part of an area located in what is nationally known as the Malpai Borderlands, thought to be one of the most biologically diverse habitats in North America. Rodeo N.M. and Portal, Arizona, 21 miles northwest of the Ranch are popular locations for birds watchers along with a diverse population of flora and fauna. The presumed location for the surrender of Geronimo is at the end of the Ranch road and the Kimble Ranch owner's rock house was the headquarters for the famous San Simon Cattle Company in the late 1890's. The Ranch is home to numerous Indian ruins, hidden canyons, deer, quail, antelope, and javalina. Due to the natural beauty of the grasslands and mountains it has been the site of numerous commercial photographic features including Marlboro and Arizona Highways.

The Ranch owner is on the Board of Directors of the Malpai Borderlands Group which focuses on building working relationships with the U.S. Forest Service, Fish and Game, and various conservation groups. There is a conservation easement on the deeded land held by the Malpai Borderlands Group.

Land Tenure

Deeded - 9,226 acres
Arizona State Lease - 9,361.27 acres
New Mexico State Lease - 747.61 acres
U.S. Forest Service - 4,470 acres
BLM - 1,356 acres

Carrying Capacity
Estimated carrying capacity is 550 adult cattle yearlong.

Vegetation, Elevation & Climate
The Kimble Ranch is characterized as open grassland with scattered stands of mesquite in the valley, and grassland with scattered mesquite, juniper, and oak in the foothills and mountains on the eastern edge. Vegetation is classified as Desert Grassland in the valley and Oak Woodlands in the higher elevation in the mountains. Primary grasses include Tobosa, sacaton, lovegrass, and cottontop in the Desert Grassland transitioning to include various grama grasses and curly mesquite in the foothills and mountains.
Terrain is flat to rolling in the valley with hills and mountains on the east side. Elevation ranges from 4,330 ft at the north boundary to 4,680 ft on the south boundary in the valley and from 4,400 to 5,880 ft in the mountains.

Weather records at Rodeo, elevation 4,120 feet, indicate average annual precipitation of 11.21 inches, mean maximum July temperature of 95.5 degrees and mean minimum January temperature of 26.2 degrees.

Water
Livestock water is provided by three wells and 15 dirt tanks. Two of the wells have pipelines with steel storage tanks and troughs. The pipeline from the Headquarters Well is a major line that runs east-west across the southern and eastern areas of the Ranch.

Improvements

Buildings

**Headquarters:**

**Main Residence** - 2,856 sq ft; 6 rooms, 2 baths: Concrete foundation, rock and concrete block construction, composition shingle roof.

- Arizona State Grazing fees - $5,216.45
- New Mexico State Grazing fees - $602.95
- BLM Grazing fees - $437.40
- Forest Service - $1,470

**Remarks**

The Kimble Ranch is one of the historic reputation cow ranches in Cochise County. The deeded and State Land is divided into 20 pastures with permanent water in all but a few smaller pastures. These pastures and the higher elevation in the hills and mountains on the east side provides seasonal balance and enables rotational pasture management. The Ranch is currently under contract with the Natural Resource Conservation Service (NRCS) for a grubbing project to eliminate mesquite on 3 pastures, and is entering its second season of a prescribed layout on this area for promoting grass regrowth. The Kimble's have been grubbing mesquite and reseeding pastures since the early 1980's.
**Price**  
$3,800,000

This ranch is also offered in two units:
